GREAT FLANK MOVE ON WAY TO LEMBERG

Brussiloff's Army Threatens Entire Austrian Front With Possibility of Capture

(By Associated Press.)
LONDON, August 7.—Gen. Brussiloff is pressing the offensive against the Teutonic allies in northern Galicia, where the passage of the Sereth river was recently forced by the Russians along a wide front of Brody. Petrograd reports further advances with the capture of strongly fortified positions along the Sereth and Gruberka. The Russians' forward push in this sector not only brings them closer to Lemberg in a direct line of advance, but, it is pointed out by military critics, that it is likely to seriously endanger the entire Austrian front along the Stripa to the south, which is rapidly being outflanked.

Heavy fighting continues on the western front in the Verdun region. According to Paris, the Germans are entirely unsuccessful in their efforts to regain ground lost to the French offensive last week. The attack on the Thiamont work is declared to have been checked at the outset by a French fire barrier, while the assault on Vanx and Chapitre woods was broken up by artillery and machine guns.

SOLDIERS SUFFER FROM VAST SWARMS OF WINGED PESTS IN ASIA MINOR

(By Associated Press.)
BRITISH HEADQUARTERS IN MESOPOTAMIA, August 7.—Flies, beet and dust, the three principal plagues of Mesopotamia, are what have stopped the fighting for the past several months in this theater of the great war.

Flies are so thick that soldiers say it is impossible to keep them out of their food. A squadron of cavalry coming down a road looked as if they were wearing chain armor. When they came close enough it was found that what looked like mail was the steely blue metallic mesh of flies.

(By Associated Press.)

Many miners and their families have left for the seaside, causing many mines to work part time most of the week. In the cities business is carried on as usual and the munitions factories are running at full pressure.

FAMILY INJURED IN AUTO ACCIDENT

AUTO ACCIDENT PROVES NOT TO BE AS SERIOUS AS AT FIRST REPORTED

This morning a report was current to the effect that J. S. Van Dyck, wife and two children had been killed near Skaggs, Cal., in an auto accident. In trying to confirm the story the Bonanza learned that Van Dyck was injured ten days ago while fighting a forest fire. Mr. Van Dyck and family were using their auto carrying water when the machine was upset. Van Dyck sustained a fractured leg, while his wife and child each received serious bruises about the head.

Mr. Van Dyck was one of the best known young mine operators, having for years been connected with the Florence Goldfield office as confidential clerk under the late Thomas G. Lockhart. Later Van Dyck entered into a law partnership with Watson and continued to serve the Florence company as legal adviser. During that period Van Dyck became interested in the Jumbo Extension, of which he gained control through purchase of Lockhart's interest, and he devoted most of his time to developing that property, without, however, bringing it out as a permanent shipper. Van Dyck was succeeded in control of the Jumbo Extension by Charles S. Sprague and after that Van Dyck devoted most of his time to the Sunset company, a reorganization of the Tramps Con. near Rhyolite.

SUBMARINE SIGHTED

MAY BE THE BREMEN COMING ALONG THE NORTHERN COAST

(By Associated Press.)
PORTLAND, Maine, August 7.—A submarine was sighted five miles off the coast by a lookout of the coast guard near Cross Island this morning. The boat was moving west, but the weather was thick and the nationality could not be determined. After coming to the surface for fifteen minutes the boat submerged.

(By Associated Press.)
MACHIASPORT, Maine, August 7.—Lowell Dunn, a lookout at Cross Island, later reported he sighted a second submarine considerably smaller than the first. The island lies close to the Maine shore. If it was the Bremen she is much off her course, else her captain chose to come close to the enemy country in order the sooner to reach neutral waters.

(By Associated Press.)
WASHINGTON, August 7.—Navy officers said no American submarine was known to be anywhere in the vicinity of Cross Island. They thought the boat sighted was probably the German submarine Deutschland homebound or her sister ship Bremen bound for the United States.
